EDUCATION

Panimalar Engineering College B.Tech in Artificial Intelligence and Data Science	2022 – 2026 CGPA: 8.23 / 10.0
GK Shetty Vivekananda Vidyalaya Junior College HSC	2021 – 2022 Percentage: 89.39

INTERNSHIP EXPERIENCE

Cognizant Programmer Analyst Intern (Fullstack Angular) (Tools: Angular, TypeScript, Java, Spring Boot)	Jan 2025 - Mar 2025
- Contributed to the development of a complex financial regulatory reporting system (RegReportX). - Engaged in full-stack development using Angular for the front end and Java/Spring Boot for backend API integration. - Collaborated with the team to build scalable enterprise banking modules and improve reporting workflows..	
Agilisium Consulting Data Engineering Intern (Tools: OpenCV, OpenAI API, JavaScript, CSS, HTML)	Jun 2024 - Sep 2024
- Implemented a live meeting video summarizer that increases efficiency by 80%. - Developed a gesture-based meeting summarizer to assist in presentations during meetings. - Implemented the Insightify web system to offer personalized learning for students and freshers	

PROJECTS

AI-Based Healthcare Assistant – Lumina	LINK
Tools: Python, Gemini Flash 1.5, YOLO, CNN, LangChain, Roboflow (Ultralytics)	
- Developed a multi-functional AI healthcare assistant integrating prescription analysis, wound detection using a custom YOLO model, and psychometric testing for mental health monitoring. - Integrated Gemini Flash 1.5 for real-time prescription interpretation and health-related queries.	
Regulatory Reporting System – RegReportX (Bank)	LINK
Tools: Java, Spring Boot, Angular, TypeScript, HTML, CSS, MySQL, REST APIs	
Implemented role-based modules for Operation Officers, Compliance Analysts, Risk Analysts, and Reporting Officers to ensure controlled data processing and governance.	
AGV Path Tracking and Navigation System (Ongoing)	LINK
Tools: Python, RaspberryPi, CNN, YOLO, Ultrasonic sensor	
- Developing an industrial AGV prototype with autonomous navigation, featuring lane detection and CNN-based steering prediction, and planning to add object detection for improved navigation and safety. - Implementing A* algorithm for shortest-path optimization with turn control to enable efficient routing and integrated turn decisions.	

SKILLS SUMMARY

- **Languages & Frameworks:** Python, Java (Spring Boot Microservices), JavaScript (JS), TypeScript (TS), Angular, SQL, REST APIs
- **AI & LLM:** LangChain, OpenAI API, CrewAI, TensorFlow, Keras, OpenCV, NLP, LLM concepts
- **Cloud & DevOps:** CI/CD Pipelines, GitHub, SonarCube
- **Data/Other Tools:** Streamlit, FastAPI, Pandas, scikit-learn, Seaborn, Matplotlib, Plotly, MS Excel, PowerBI

CERTIFICATES

Deep Learning (NPTEL)	Data Science for Beginners (NASSCOM)
GenAI Data Analytics Simulation (TCS)	Computer Vision with Python (Udemy)
Applied Generative AI (Infosys)	Oracle Cloud Infrastructure 2025 (Oracle)

OTHERS

Achievements

- 2nd Prize – **NEXTGEN AI Project Expo**
- Best Technology Used Award – **CTS TECHCATHON 2.0**
(Cognizant)
- Best Student Award – **AI&DS (IEEE)**

Publications

- Insightify:** A Platform for the Betterment of Students
(IJFMR) - [Paper](#)
- Building:** My First Translation Transformer Model
(English-Tamil) Article - [Medium](#)
